

Botswana Safaris

Botswana safaris offers some of most diverse and exclusive wildlife experiences that Africa has to offer. From the vast desert of the Kalahari where Bushman still roam to the channels and flood plains of the Okavango Delta. You cannot dream up a more diverse wildlife holiday!

Botswana safaris are offered in pristine wilderness conservation areas with little road networks. This means that the only way to reach many of the camps is by taking a light aircraft flight to most of the lodges. The flight in itself is spectacular as you get a birds eye view of the safari areas you will be visiting. This makes for some great photographic opportunities – it is even possible to see the larger mammals like hippo, elephant and giraffe from the air! Very exciting!

There is nothing more magical than drifting through the channels of the Okavango Delta in a mokoro (traditional canoe) with the sounds of the water, bird life and occasional grunt of a hippo to disturb the tranquility...

A safari to Botswana is relatively easy to tag onto a larger holiday in South Africa, and when doing so we do recommend a minimum of 3 nights to make the most of it. If you feeling really indulgent, why not take a trip on one of the Botswana safaris as long weekend from London...

This page includes a small selection of what is possible to do in Botswana, have a browse for an idea of our selection of Botswana safaris and if something catches your eye, let us know. All itineraries are samples only and it is easy to change or add to these, creating your ideal safari itinerary. We realise it can be overwhelming to decide what is best for you, so why not give Anthea a call on 020 7112 0019 to chat through the best way to spend your time exploring all the magic Botswana safaris can offer... Otherwise email us for

more information and inspiration of how best to use your time.
