

# Malaysia Holidays

Malaysia holidays offer something for everyone: a modern capital city where the old and new live side by side, UNESCO-designated cultural cities oozing with charm, ancient rainforest where monkeys peer down from the trees and adventure awaits the brave, and some of the most beautiful beaches you never knew existed. The secret of all that Malaysia offers is still well kept so the time to go is now.

Every trip we plan is tailor made so that you get the perfect Malaysia holiday. For inspiration and some of our favourite routes, take a look at our sample itineraries but remember, there's far more to do and many other ways to experience this diverse nation.
