

Gulets

A truly unique way to explore Turkey's remarkable coastline is sailing aboard a beautiful, luxury gulet.

Whether a few days or longer – it's our absolute favourite way to start or end a tour of Turkey. We've created a small portfolio of beautiful gulets and yachts for sole charter that you can browse below, ranging from 2-5 cabins.

These magnificent vessels are incredibly comfortable, offer plenty of space and come complete with a friendly and professional captain and crew – so no previous sailing experience required! The on-board chef will prepare mouth-watering Turkish dishes throughout your stay, so you don't need to lift a finger. Bliss! There are various board options, you can choose whether you want to dine on board, on land, or both.

Simply lie back, relax and marvel at the lush, verdant scenery, azure waters and soak up the glorious Turkish sunshine. With various routes to experience, each pausing at unspoilt beaches and coves, many of which can only be accessed by boat.

The vessels all include tenders and water sports gear such as canoes, paddleboards, snorkelling and fishing equipment. Snorkel in the clear warm waters around semi-submerged ruins, canoe over to deserted coves or try your hand at fishing. There will not be a dull moment and there is plenty to keep the whole family entertained!

Turkey's charter season runs from April to November. You'll begin and end your journey in a modern marina in the town of Fethiye, Göcek, Marmaris or Bodrum. Why not combine some time cruising with a break on land and stay at one of our hand-picked properties. This will give you an even deeper insight into Turkey's culture, breath-taking scenery and of course,

superb cuisine.
